An Important Coronavirus Update

As cases of COVID-19 (Coronavirus) increase in the United States and around the globe, Keeler Tavern Museum & History Center (KTM&HC) is taking steps in response to the growing public health concern.

We recommend these trusted websites for up-to-date information:

- Centers for Disease Control and Prevention
- World Health Organization
- American Alliance of Museums
- State of Connecticut Official Covid-19 Website

Effective March 12, 2020, KTM&HC suspended all public activities through May 1. This means that school programs, public programming, and private events are postponed until after May 1 with the hopes of rescheduling in the future.

We will also not reopen our site for the season until at least May 1. Only our self-guided, outdoor walking tour “Gilberts in the Gardens” and our new cannonball “window onto history” remain open so long as people adhere to rules issued by the CDCP, state, and local authorities for social distancing.

KTM&HC staff will continue to work. Questions can be submitted by email to info@keelertavernmuseum.org. If you are an educator, please email education@keelertavernmuseum.org for our distance learning resources. Please visit our museum’s website for online resources and updates at keelertavernmuseum.org.

Please continue to check this news page, our events page, and Facebook, Instagram, and Twitter for future changes to programs, events, hours of operation, and potential closures. If you have questions, or if we can assist you, please contact Hildegard Grob, executive director, at hgrob@keelertavernmuseum.org or leave a message at 203-435-5485 ext.11.
